

Phase Change Material (PCM)

Saf-T-Temp™ brand Phase Change Materials (PCM) are engineered to help keep your valuable payload within the desired temperature range during transit, whether at frozen, refrigerated or controlled room temperatures.

Saf-T-Temp PCMs are tested and pre-qualified in a variety of Saf-T-Pak insulated shipping systems, providing cost effective solutions for many shipping requirements. Individual data sheets with thermal performance test results, preconditioning and assembly instructions are available by contacting your Territory Manager.

The Saf-T-Temp line can also provide thermal protection solutions for your custom designed packaging. Saf-T-Pak will work with your team to provide cost effective solutions that meet your specific requirements. Whether you require customized systems, customized temperature PCMs or off-the-shelf, pre-qualified solutions, Saf-T-Pak is ready to become your trusted partner for your thermal packaging solutions.
